

## MARCH WITH ME

Come sing with me  
For peace and love

My only dream  
And wish for the world

Join with me now  
And march with me

Love is the word  
Let`s try once again

Stop all ights now  
And march.....

Let`s try once again  
To help all mankind

To win those lost hearts  
And start this new life

No evil No guns  
Just freedom and peace

No evil just peace  
Just freedom No guns

No evil just freedom  
And march....
